	<ul style="list-style-type: none"> The interest rate is variable, which means the rate can go up or down. All interest is calculated daily and is paid gross. Interest is added to your savings balance monthly in arrears on the first day of each month and compounds monthly which means you'll be earning interest on interest. 'AER' stands for 'Annual Equivalent Rate' and illustrates what the interest rate would be if interest was paid and compounded once each year. 'Gross' is the rate of interest without tax deducted. A 'year' is 365 days or 366 days in a leap year.

You'll start to earn interest on the day we receive your money, provided we receive it by 5pm on a working day. If the money is paid in on a non-working day, or outside of normal working hours, we'll receive it on the next working day.

On the first day of each month, we'll add any interest you earned in the previous month to your account balance. Interest will compound which means you'll be earning interest on interest.

Changing the interest rate

The interest rate on this account is variable, which means we can change it. The interest rate may increase or decrease. Check the 'Changing interest rates' section of your Savings Terms for more information about when and how we can change your interest rate.

If we decrease the interest rate, we'll give you at least 119 days' notice (this is your notice period plus 14 days) before the lower rate is applied to your account (unless you've not had your account for 14 days in which case we'll give you at least 105 days' notice).
